CSR Activities- V@rSITy-care

- to work for social awareness and social change and to raise awareness of human/environmental needs and charity.

- With an aim to nurture proactive professionals with Values, Knowledge and Skills, which would make them more humane and globally responsible citizens, SIT has setup a Social Activities Club to undertake social responsibilities and help the community to the best of our capabilities.

- The Club attempts to encompass the virtuous integration of Heart, Head and Hand through these social initiatives

- The social initiatives would help evolve students as a true global citizen with a sense of responsibility and commitment towards the environment and the society at large and inculcate Ethics, Empathy, Compassion and Honesty

- The activities planned through the Social Initiatives are expected to reinforce the following values that SIT aims to instil in its students:

  - Empathy: Through the undertaking of activities and projects which give an opportunity for students to make a positive contribution to the Society and Underprivileged people.

  - Openness: Shape their knowledge and skills through exposure to various initiatives being undertaken by several Social Enterprises

  - Professionalism: Encouraging the students to apply the various professional skills that the students have gained in addressing various social and environmental problems, in their social activities and projects

  - Ethical Behaviour: to reflect in all their efforts in these initiatives

  - Self Esteem: To create a sense of achievement and fulfilment among students by encouraging them to undertake result oriented and innovative ideas while undertaking social activities and projects.
