

Visit of CDAC team

A high level team from CDAC Pune comprising of Dr. Hemant Darbari, Director General, Mahesh Kulkarni, Senior Director Corporate R&D & HOD GIST, Dr. Ajai Kumar, Senior Director AAI Group, Dr. Subramaniam, Associate Director Corporate R&D and Ms. Sagri, OSD to DG, visited Symbiosis Institute of Technology(SIT) on October 7, 2019, to discuss possible areas of research collaboration between CDAC and SIT. Dr. Ketan Kotecha, Director , SIT welcomed the gathering and highlighted the activities of the Symbiosis Centre for Applied Artificial Intelligence(SCAAI). Since CDAC is involved in several projects in the area of AI and Deep Learning he suggested that there was ample scope for joint projects between SIT and CDAC in the field. Dr. Hemant Darbari, DG, CDAC spoke about the growth of CDAC over the decades and detailed the several sectors in which CDAC is working on. He highlighted that the application areas of AI were very diverse and hence there is plenty of scope for multidisciplinary projects. Mr. Mahesh Kulkarni then made a presentation on the several projects that CDAC has undertaken such as the Underwater Drone, Communication Based Train Control(CBTC) for Metro Rail, the sentiment analysis tool for social media, e-vidur, Drug repurposing etc. The meeting concluded with both sides agreeing to have one on one meetings with experts from both sides to identify specific projects for joint collaboration.
